Pitkin Theater Rehabilitation Wins Brooklyn Building Award

(May 23, 2013) The Pitkin Theater Center in Brooklyn, NY was awarded a 2013 Building Brooklyn Award by the Brooklyn Chamber of Commerce in the category of Historic Preservation and Community Development. The awards are given annually to recently completed construction and renovation projects that enrich Brooklyn's diverse neighborhoods and economy.

The Pitkin Theater - originally constructed in 1929 - underwent a substantial rehabilitation of approximately 170,000 s.f. on 6, above-grade floors and a cellar level. 20,000 square feet of leasable commercial and retail space are available on the ground floor and Ascend Charter School operates and occupies the balance of the building.

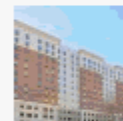

Congratulations to developer and owner, POKO Partners, as well as the entire K&A project team for contributing to the new life and growing vitality of Brooklyn's Pitkin Avenue corridor.
